Welcome to
Introduction to MATLAB and how it makes your homework easier

The event will begin shortly, before we begin remember:

Mute your mics

(should be off by default)

If you don't have MATLAB, scan the code to get started
Introduction to MATLAB
and how it makes your homework easier

Simon Thor   MATLAB Student Ambassador

Agenda

- About MATLAB@KTH

- Introduction to MATLAB

- MATLAB for homework

- Resources to learn more

- **Ask questions whenever you want!**

MathWorks®

Introduction to MATLAB
And how it can make your homework easier
2020-10-07 17:15-18:00

Who am I?

- Simon Thor

- Engineering Physics student

- Enjoy particle physics, space physics

- Tasked with organizing events like this one

- Post on social media

github.com/simonthor/kth-matlab-ambassador

Facebook group

- Join the MATLAB@KTH Facebook group
- Stay up to date with all events being hosted
- Posts about MATLAB & Simulink resources

- Instagram: @matlab_kth
- Post (outdated) memes
- Suggest better memes!

facebook.com/groups/MATLAB.KTH

What is MathWorks?

- Private company

- Creators of MATLAB and Simulink

- Founded in 1984

- $1 billion revenue
  - Profitable every year

- Hiring(!)

5,000 +
Staff Members

33
Global Locations

What is MATLAB?

- High-level technical language
  - Native support for vector and matrix operations
  - Built-in math and visualization functions

- Interactive development environment
  - Interactive and easy to get started
  - Ideal for iterative exploration and design

- Biannual release cycle
  - Current version is r2020b **new!**

Key Industries that use MATLAB

Aerospace and Defense

Automotive

Biological Sciences

Biotech and Pharmaceutical

Communications

Electronics

Energy Production

Financial Services

**Industrial Machinery**

Medical Devices

Metals, Materials, Mining

Neuroscience

Railway Systems

Semiconductors

Software and Internet

A few companies that use MATLAB

- Amazon
- Apple
- Scania
- BAE Systems
- Bank of England/PRA
- BMW
- Boeing
- Facebook
- Ford Motor Company
- Genentech
- Google
- Huawei

- Hydro-Québec
- Intel
- Johnson & Johnson
- JP Morgan
- NASA
- Ericsson
- Qualcomm
- Samsung
- Siemens
- Tetra Pak
- Texas Instruments
- Toyota

**4 million+**
users in 185 countries

100,000+
businesses, governments, and universities
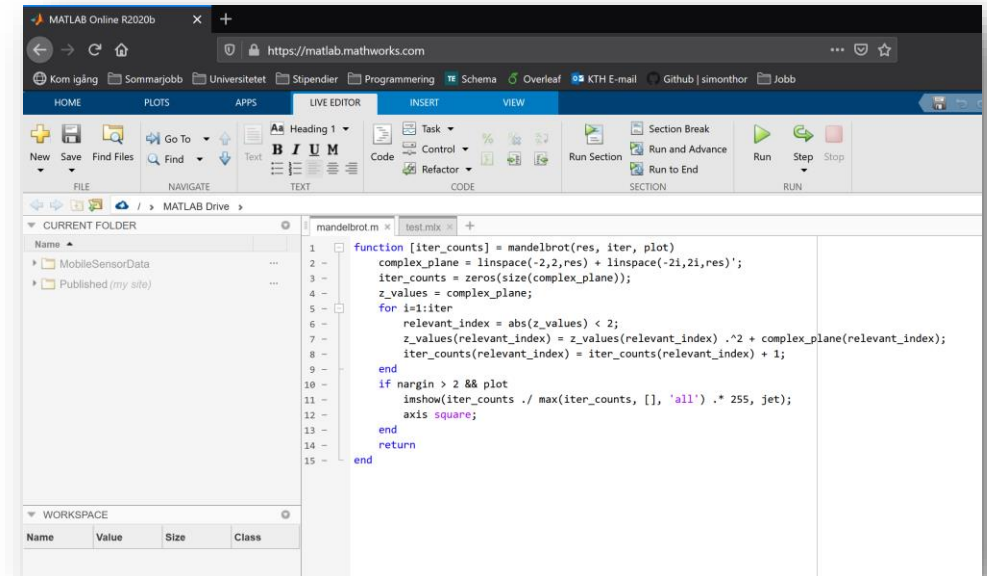

All of the top 10 automotive and aerospace companies

Why use MATLAB?

- ## Fast
  - Can be used for rapid prototyping

- ## Easy to read and learn

- ## Extensive documentation
  - Help forum, built-in documentation, examples etc…

- ## Toolboxes for everything
  - Deep learning, LiDAR, parallell computing…

- ## **You need it for your homework!**

MATLAB anywhere

- MATLAB online

- Code stored in the cloud

- MATLAB Mobile

- Run commands, m-files, see visualizations

- All files connected to MathWorks cloud

- Acquire data from device sensors
    - GPS, accelerometer etc…
https://matlab.mathworks.com/

Demo

- Basics

- Live scripts

- Linear algebra

- Differential equations
 - Symbolic math toolbox

- Visualization

```
function matrix_direction_field(M, xlimits, ylimits, res, title_text)
% MATRIX_DIRECTION_FIELD plot a direction field of a system of differential
% equations.
    arguments
        M (2, 2) {mustBeNumeric}
        xlimits (1, 2) {mustBeNumeric}
        ylimits (1, 2) {mustBeNumeric} = xlimits
        res {mustBeInteger} = 20
        title_text string = join(["$\frac{d\vec{x}}{dt} = " matrix2str(M) "\cdot\vec{x}$
    end
    [X, Y] = meshgrid(linspace(xlimits(1), xlimits(2), res), linspace(ylimits(1), ylimit
    pos = [reshape(X, 1, []); reshape(Y, 1, [])];
    vec = M * pos;
    square_vec = reshape(vec(1, :), res, []);
    square_vec(:, :, 2) = reshape(vec(2, :), res, []);
    vec_length = sqrt(square_vec(:, :, 1).^2 + square_vec(:, :, 2).^2);
    quiver(X, Y, square_vec(:, :, 1)./vec_length, square_vec(:, :, 2)./vec_length);
    axis tight; grid on; xlabel('x'), ylabel('y');
    title(title_text, 'interpreter','latex');
end
```

Fun ways to use MATLAB

- Perfect for hobbies and small projects
  - Mario game
  - Fractals

- Can be used for internet of things

- Student association projects
  - Rocket launches
 - Car racing

Online courses

- **MATLAB Onramp**

  - 2 hours of introductory material

- Free access, self paced

- Many other courses

  - Machine Learning

  - Deep Learning

  - Simulink

  - Stateflow

- Send proof to get giveaways

![MathWorks logo]

Additional Self-Paced Training Courses

These courses are free with your university MATLAB license

Computational Mathematics

Solving Nonlinear Equations with MATLAB	Solving Ordinary Differential Equations with MATLAB	Introduction to Linear Algebra with MATLAB	Introduction to Statistical Methods with MATLAB	Introduction to Symbolic Math with MATLAB

9 hours of short courses on computational mathematics topics
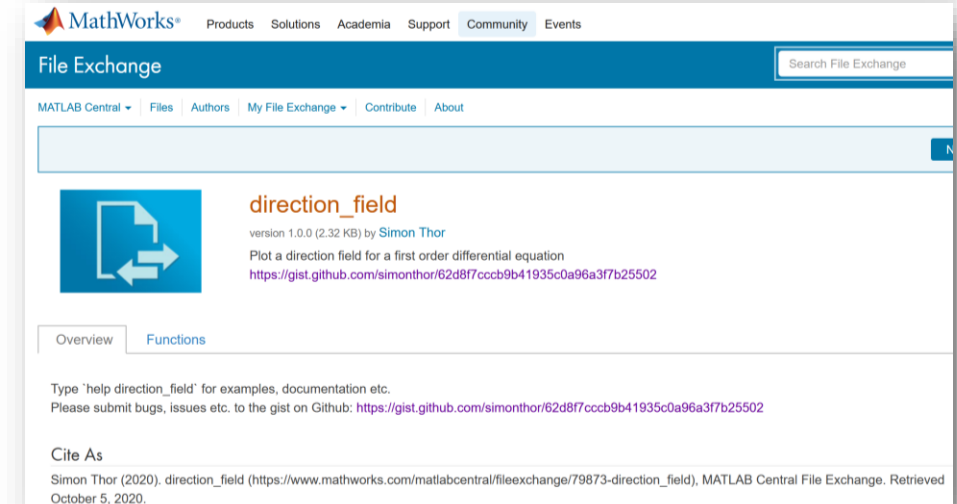

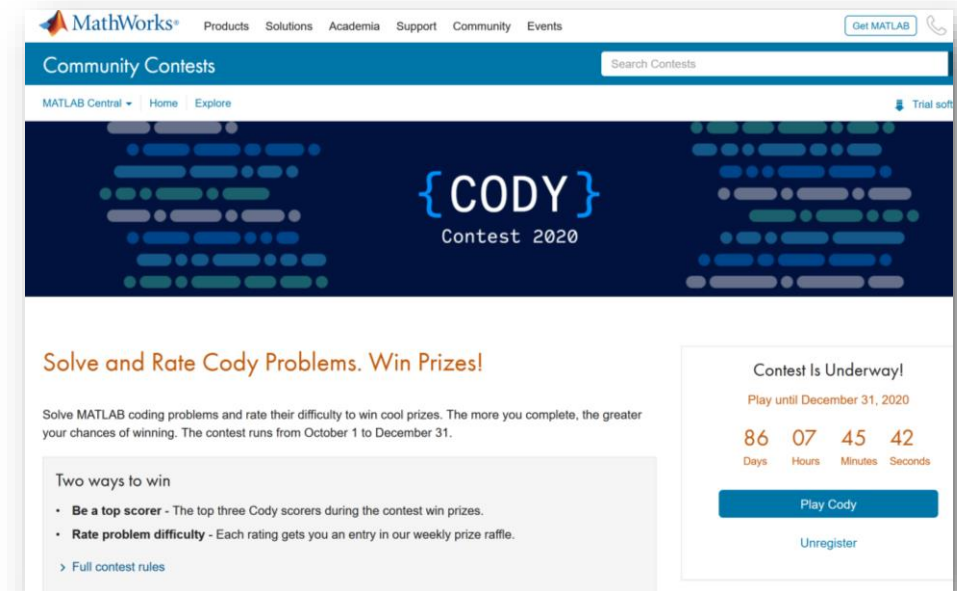

Core MATLAB   Data Science

MATLAB Fundamentals	MATLAB Programming Techniques	MATLAB for Financial Applications		MATLAB for Data Processing and Visualization	Machine Learning with MATLAB	Deep Learning with MATLAB

Over 80 hours of comprehensive MATLAB learning content

Other resources

- Cody
  - [Cody contest 2020](#)

  - Local competitions in Facebook group

- File Exchange
  - Access more than 10k free files

- Facebook group
  - Ask questions

  - Answer quizzes

  - Get merch!

Thank you for attending!
